DETAILED ACTION

1. The indicated allowability of claim 11 is withdrawn in view of the newly discovered reference(s) to Wheeler et al. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Wheeler et al (4,546,420).

4. The recitation “an elongated track system” has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951). Applicant has not recited any structure describing a “tracklight system”.

5. Wheeler discloses a light reflector (40) a light diffuser (38), a tube (10) enclosing one longitudinally spaced light source (light within reflector 40), emitting light through an elongated lens (18) within the tube, said lens including means for biasing light in at least

Art Unit: 2875

one radial direction in a plane transverse to the tube (inherent, since light going through lens 18 will go outwardly through it in a plane parallel to the lens which is transverse to the tube)

Allowable Subject Matter

6. Claims 1-10 are allowed.
7. Claims 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
